UNLOCK THE POWER OF SALESFORCE THROUGH OPTIMIZATION

As your business environment changes and Salesforce applications evolve, ensure your deployment is following best practices and taking advantage of new functionality.

GET THE MOST OUT OF YOUR INVESTMENT

The business environment is in a constant state of flux. There are changes in government regulations, mergers/acquisitions, corporate reorganizations, employee turnover, and changes in internal sales processes. In addition, each year Salesforce.com releases hundreds of new function points of technology that simplifies many of the customizations that have been done in the past.

Your Salesforce deployment needs to be kept in sync with all these changes to make sure you are getting the most out of your investment.

Our proven methodology and expert consultants provide an economical, a non-biased, 3rd party review of your deployment to provide detailed feedback on areas where changes can streamline both the user experience and administrative overhead within the platform.

REAL RESULTS

After 5 years of evolving their Salesforce instance and onboarding new businesses, a large financial services company engaged Wave6 to provide assessments of several of their instances. During this process code, configuration, and security were reviewed. By implementing the recommended changes, the client now enjoys a more streamlined user experience, a reduction in customizations, and remediation of several potential security vulnerabilities.

SALESFORCE OPTIMIZATION SERVICES

In addition to performing reviews, Wave6 offers a full suite of Salesforce consulting services that can execute on any changes specified in our assessments.

- Executive Business Reviews
- Org Business Alignment
 - Code/Customization/Object Model Assessments
 - Configuration Reviews
 - Security Structure Reviews (current and future users)
 - Report of Findings
- Salesforce Org Merges
- New Division Implementations

GET ENGAGED

If you have a dynamic business environment that might not be fully aligned to your Salesforce investment, give us a call. Our Salesforce Optimization services provide you with a holistic view of the state of your deployment so you can be ready to take your Salesforce instance to the next level.
